+ Remove Garbage Cans from Front of House

+ No Pets

+ Pick up Yard

Many sellers today hire people to stage their home for showing. We feel that the above suggestions are some staging tips to prepare for your home being photographed. When we get to your home, we will open all the blinds and turn on all the lights. From the time we arrive to the time we finish, we should be there no more than 45 minutes to an hour.

In today's market, we are aware that first impressions are critical to your home getting a second look. Today's buyers typically will "look" at your home on line before they walk in and "feel" the atmosphere. We do not want to meet the home buyer's expectation, **we want to exceed it!**

We will be back on _____ / _____ / 20____ at _____ : _____ am pm to photograph your home.

The time to photograph should take less than one hour.
